

# School of Engineering and Computer Science

Te Kura Mātai Pūkaha, Pūrorohiko

## Prescription

This course introduces the fundamental networking protocols and architectures used in the Internet of Things (IoT). In particular, the course will examine the latest protocols and protocol stacks for low power wireless networking in both short-range and long-range settings. It will include in-depth discussion of protocols and algorithms at various layers of the network stack including medium access control, network, application, as well as security aspects unique to IoT.

## Course learning objectives

Students who pass this course will be able to:

1. Explain the role of networking in the Internet of Things, the different IoT networking architectures, and security issues unique to IoT.
2. Explain the advantages, disadvantages, constraints and use cases of short-range and low power wide area network technologies and networking protocols.
3. Explain how new protocols stacks such as named data networking and information-centric networking can address the limitations of existing networking architectures.
4. Apply their knowledge of IoT technologies and protocols to the design, implementation and operation of IoT networks.

## Withdrawal from Course

Withdrawal dates and process:

<https://www.wgtn.ac.nz/students/study/course-additions-withdrawals>

## Lecturers

---

### Alvin Valera (Coordinator)

alvin.valera@vuw.ac.nz 04 4635139

401 Alan MacDiarmid Building, Kelburn

---

### Winston Seah

winston.seah@vuw.ac.nz 04 4635233 ext 8493

416 Alan MacDiarmid Building, Kelburn

## Teaching Format

This course will be offered in-person and online. For students in Wellington, there will be a combination of in-person components and web/internet based resources. It will also be possible to take the course entirely online for those who cannot attend on campus, with all the components provided in-person also made available online.

This course will be taught via 2 50-minute face-to-face lectures per week. Lectures are recorded and will be available through Blackboard.

## Dates (trimester, teaching & break dates)

- Teaching: 13 July 2020 - 18 October 2020
- Break: 17 August 2020 - 30 August 2020
- Exam period: 19 October 2020 - 25 October 2020

## Class Times and Room Numbers

### 13 July 2020 - 16 August 2020

- **Tuesday** 10:00 - 10:50 – 104, Alan MacDiarmid Building, Kelburn
- **Thursday** 10:00 - 10:50 – 103, Murphy, Kelburn

### 31 August 2020 - 18 October 2020

- **Tuesday** 10:00 - 10:50 – 104, Alan MacDiarmid Building, Kelburn
- **Thursday** 10:00 - 10:50 – 103, Murphy, Kelburn

## Set Texts and Recommended Readings

### Required

There are no required texts for this offering.

## Mandatory Course Requirements

In addition to achieving an overall pass mark of at least 50%, students must:

- Submit a reasonable attempt at the project, because the project addresses the critical CLO 4 that is not addressed by the other assessment items.

*If you believe that exceptional circumstances may prevent you from meeting the mandatory course requirements, contact the Course Coordinator for advice as soon as possible.*

## Assessment

This course is 100% internally assessed.

---

Assessment Item	Due Date or Test Date	CLO(s)	Percentage
Term test (Take-home)	Assessment Period	CLO: 1,2	20%
Term paper (approximately 2,000 words; 40 hours)	Topic: Week 3; Report: Week 6; Revised Report: Week 9	CLO: 2,3	40%
Project (design, implementation and evaluation of an IoT system; 40 hours)	Code and Report: Week 11; Demo: Week 12	CLO: 2,3,4	40%

## Penalties

Term Test submitted after the deadline will not be marked and will get 0 marks.

Any assignment (term paper or project) submitted up to 24 hours after the deadline will be penalised by 20% of your marks, Any assignment submitted between 24 and 48 hours after the deadline will be penalised by 40% of your marks. Any assignment submitted 48 hours or more after the deadline will not be marked and will get 0 marks.

## Extensions

Any request for extension must be supported by a medical certificate or other acceptable documentation for non medical reasons. Medical certificates must be provided by a registered medical practitioner. **Approval for extensions can only be granted by the course lecturers.**

## Submission & Return

Term test, term paper and project deliverables are to be submitted electronically via the ECS submission system. The term paper and project deliverables are due at 23:59 on the date specified while the term test is due at 12:00 on the date specified.

## Workload

The student workload for this course is 150 hours.

## Teaching Plan

See [https://ecs.wgtn.ac.nz/Courses/NWEN439\\_2020T2/LectureSchedule](https://ecs.wgtn.ac.nz/Courses/NWEN439_2020T2/LectureSchedule)

## Communication of Additional Information

Please refer to the ECS Wiki Page at [https://ecs.wgtn.ac.nz/Courses/NWEN439\\_2020T2/](https://ecs.wgtn.ac.nz/Courses/NWEN439_2020T2/) for the latest information related to the course.

**Offering CRN:** [18594](#)

**Points:** 15

**Prerequisites:** NWEN 241, 243; 60 further 300-level pts from (COMP, ECEN, NWEN, SWEN).

**Duration:** 13 July 2020 - 25 October 2020

**Starts:** Trimester 2

**Campus:** Kelburn
