

School of Engineering and Computer Science

Te Kura Mātai Pūkaha, Pūrorohiko

Prescription

The course addresses a range of software development skills and builds an understanding of technical and software engineering concepts and techniques. Students will work on a variety of industry relevant group projects which address a range of topics in software development and computer science. The course will teach teamwork skills, professional practice skills, and communication skills in the context of software development.

Course learning objectives

Students who pass this course should be able to:

1. Demonstrate competence in the practical art of software engineering through the design and development of moderately-sized programs.
2. Work cooperatively in a team to produce a moderately-sized software project.
3. Construct effective design documentation and related reports, and communicate a software design in an oral presentation.
4. Evaluate the limitations of different solutions when designing programs, with respect to Design Patterns and Design-by-Contract.
5. Apply knowledge of networks, web systems, databases, and other computer science concepts to software design.

Course content

This course requires students to attend in person and cannot be taken online.

Students will study a range of topics and then work on two main projects which address a range of topics in software development and computer science. Topics include Databases, Networking, Cybersecurity, HCI, Mobile Apps, and web applications. Each of these topics will take 1 week, and there will be two projects that cover the material from the proceeding topics.

Required Academic Background

Acceptable performance in SWEN 501

Withdrawal from Course

Withdrawal dates and process:

<https://www.wgtn.ac.nz/students/study/course-additions-withdrawals>

Lecturers

Dr Ali Ahmed (Coordinator)

ali.ahmed@vuw.ac.nz 04 886 5328

CO 251 Cotton Building (All Blocks), Gate 7, Kelburn Parade, Kelburn

Dr Craig Anslow

craig.anslow@vuw.ac.nz 04 463 6449

CO 260 Cotton Building (All Blocks), Gate 7, Kelburn Parade, Kelburn

Dr Stuart Marshall

Stuart.Marshall@vuw.ac.nz 04 463 6730

CO 338 Cotton Building (All Blocks), Gate 7, Kelburn Parade, Kelburn

Teaching Format

The course is taught as a set of seminars and interactive class exercises and labs.

Student feedback

Student feedback on University courses may be found at:

Dates (trimester, teaching & break dates)

- Teaching: 11 July 2022 - 14 October 2022
- Break: 22 August 2022 - 04 September 2022
- Study period: 17 October 2022 - 20 October 2022
- Exam period: 21 October 2022 - 12 November 2022

Class Times and Room Numbers

Set Texts and Recommended Readings

Required

There are no required texts for this offering.

Mandatory Course Requirements

There are no mandatory course requirements for this course.

If you believe that exceptional circumstances may prevent you from meeting the mandatory course requirements, contact the Course Coordinator for advice as soon as possible.

Assessment

Assessment Item	Due Date or Test Date	CLO(s)	Percentage
6 programming and development assignments, each worth 10% of your final grade (approximately 1 week each)	TBC	CLO: 1,2,3,4,5	60%
1 Project Report, including code and documentation (approximately 3 weeks)	TBC	CLO: 1,2,3,4,5	20%
1 Group Presentation	TBC	CLO: 2,3,4	10%
1 Professional Seminars Report (3-5 pages)	TBC	CLO: 2,3,4,5	10%

Penalties

Unless excused, late work will be penalised at 10% per day late, up to 5 days maximum lateness.

Extensions

Depending on the cause - extensions can be negotiated on a case-by-case basis.

Submission & Return

Work will either be marked by demonstration in class, or submitted via the ECS marking system. Work submitted via the online system will be returned electronically once marked.

Marking Criteria

There are a combination of marking criterias that depend on the assessment item. Most in-class exercises are marked by demonstration - some elements are submitted, in which case they are marked for correctness and style.

Workload

This is a full time block course.

Teaching Plan
