
Week 03

COMP 102

Victoria University of Wellington

GoSoapBox

- Gosoapbox.com
 - Access code: comp102vuw

FAQ

- I have an assignment question. What do I do?
 - Labs
 - Tutorial (Monday “lecture” session)
 - comp102-help@ecs.vuw.ac.nz
 - Karsten’s open office hours

Help

Office hours Karsten:

- Anything to do with COMP102
 - Tuesday 10:10-11:00 and Thursday 14:10-15:00
 - CO252

Online help-desk:

- Any questions about code to comp102-help@ecs.vuw.ac.nz
 - Describe the issue or question
 - Attach .java file(s) if the question relates to code
 - Please no screen shots or code in the email

Labs

- Assignment help and remarking

Tuesday Tutorial

- Extra help

First-year evening workshops

Common Issues

- Using literal values to draw flags <= fail
 - Must use TOP and LEFT constants
- Not using the template
 - Use the template, it helps you!
- Try and only add code where it tells you to.

```
/**  
 * Draw the flag of the United Arab Emirates.  
 * The flag has a vertical red stripe on the left, and  
 * three horizontal stripes (green, white, black) on the right.  
 * See the assignment for dimensions and details.  
 */  
public void drawUAEFlag() {  
    UI.clearGraphics();  
    UI.println("UAE Flag");  
    double width = UI.askDouble("How wide: ");  
  
    /*# YOUR CODE HERE */  
}  
}
```

Conditionals and Strings

- Password checker

Pacman

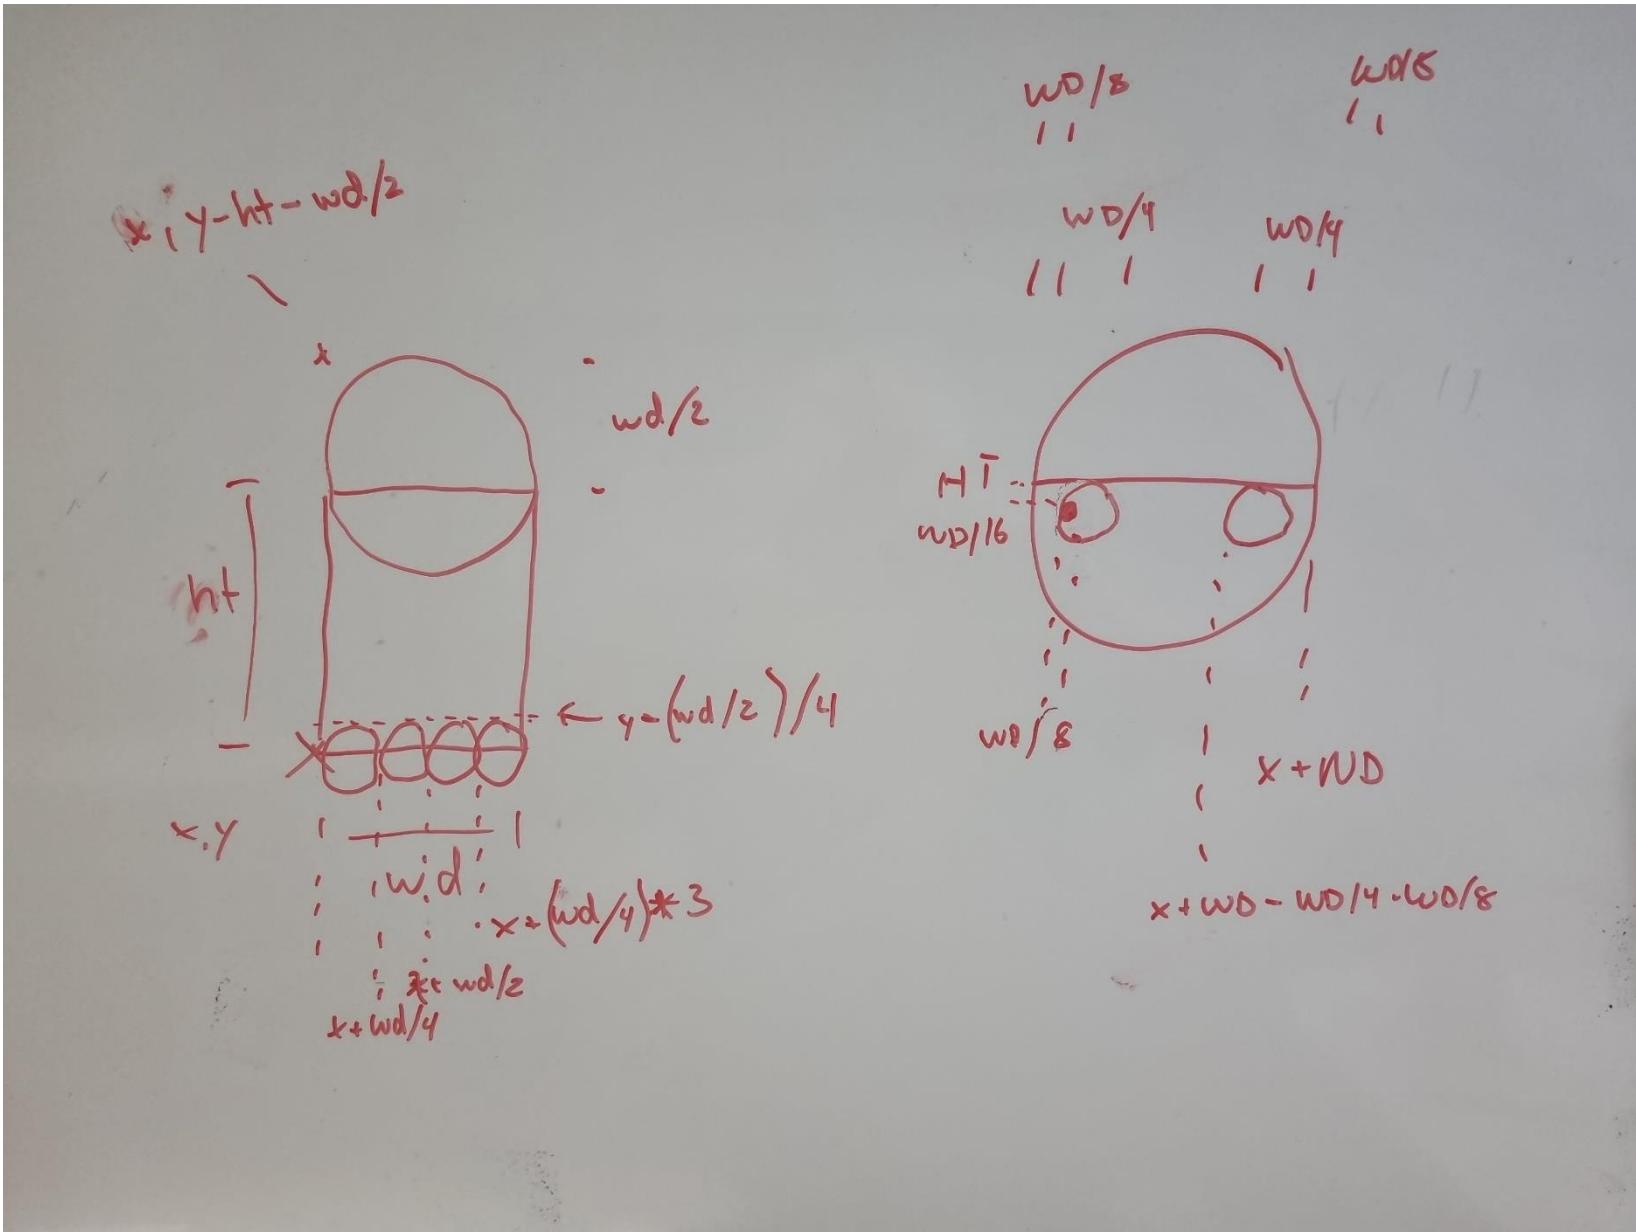

- Now with parameters!

Blinky

- Break up blinky into tasks we can do
 - Draw circles and arcs
 - Draw boxes

Blinky

Ghosts

- Code review
- Make it more flexible
 - Parameters using variable
 - More ghosts = more methods
 - Blinky = Red
 - Pinky = Pink
 - Inky = Blue
 - Pokey = Yellow
 - Normal ghost / Scared ghost
 - Direction
