- Use Social Q&A to ask questions

# Week 07- test

---

- Monday 15<sup>th</sup> April: 1 hour in-Term Test
  - Come to the room at 17:00, specific rooms are now available
    - Wait outside until the room is ready
  - End time depending on exact start time
    - Probably 18:10
  - If you have a good reason you cannot do the test at this time please email me ASAP
    - Provide reason(s) and timeframe
    - You will need a *\*very\** good reason!
      - Work is not
      - Living away from Wellington is not
      - Being abroad, might be depending on circumstance
    - I have a disability. I normally get more time, or different support, in tests.
      - You don't need to contact me if you are registered with disability services
      - If you have not talked to disability services yet. DO IT ASAP!

# Assignments

---

- If you got a 'redo' mark (e.g. 1/3)
  - Go to the following Lab and get remarked
    - Tutors will be prepared to remark that week's assignment
  - If you cannot get it remarked in that week?
    - We will also have a catch-up marking events

# Assignments

---

- We have been lenient in Assignment 1 and 2 with extensions and mistakes
  - We did this to make sure all understand the rules, without facing severe consequences
  - It has been at a huge administrative cost – estimate ~10 hours work for assignment 1 alone
- We now go into normal mode
  - Meet the deadlines
  - If you don't – you fail
    - Always ask for extensions (if possible) prior to a deadline
      - Remember, you can submit unfinished work
        - **Start early, before the lab**, submit something once you have something (unfinished)
    - If you cannot ask prior to a deadline, expect to provide proof that you could not
      - If you can prove that you could not meet it (hospital trip, power outage, etc.) will we provide extensions
      - Being ill Wednesday or Thursday is not a valid reason.
- Answer the online questions
  - At least one answer can lead to a redo grade.
    - Provided the other part of the assignment is also a redo/pass

# Assignments

---

- General comments that will help you in other courses.
  - Read the assignment yourself.
    - Don't trust other students reading. If in doubt after reading the assignment, ask staff.
  - If an assignment reads:
    - “you should” or “you should not”.
      - Not doing it **might** result in deductions
    - “you must” or “you must not”.
      - Not doing it **will** result in deductions
    - “submit the following ...”
      - Submit it, using the specified rules.
        - E.g. a .java file is not .class, .pdf, package.bluej
    - “do not change ...”
      - Don't change it
    - “start by doing this ... “, then you need to do it.
      - Even if it says it will help your learning
      - Even if it does not specify it is compulsory. Assume listed tasks and outcomes are compulsory

# Primitive and object types

---

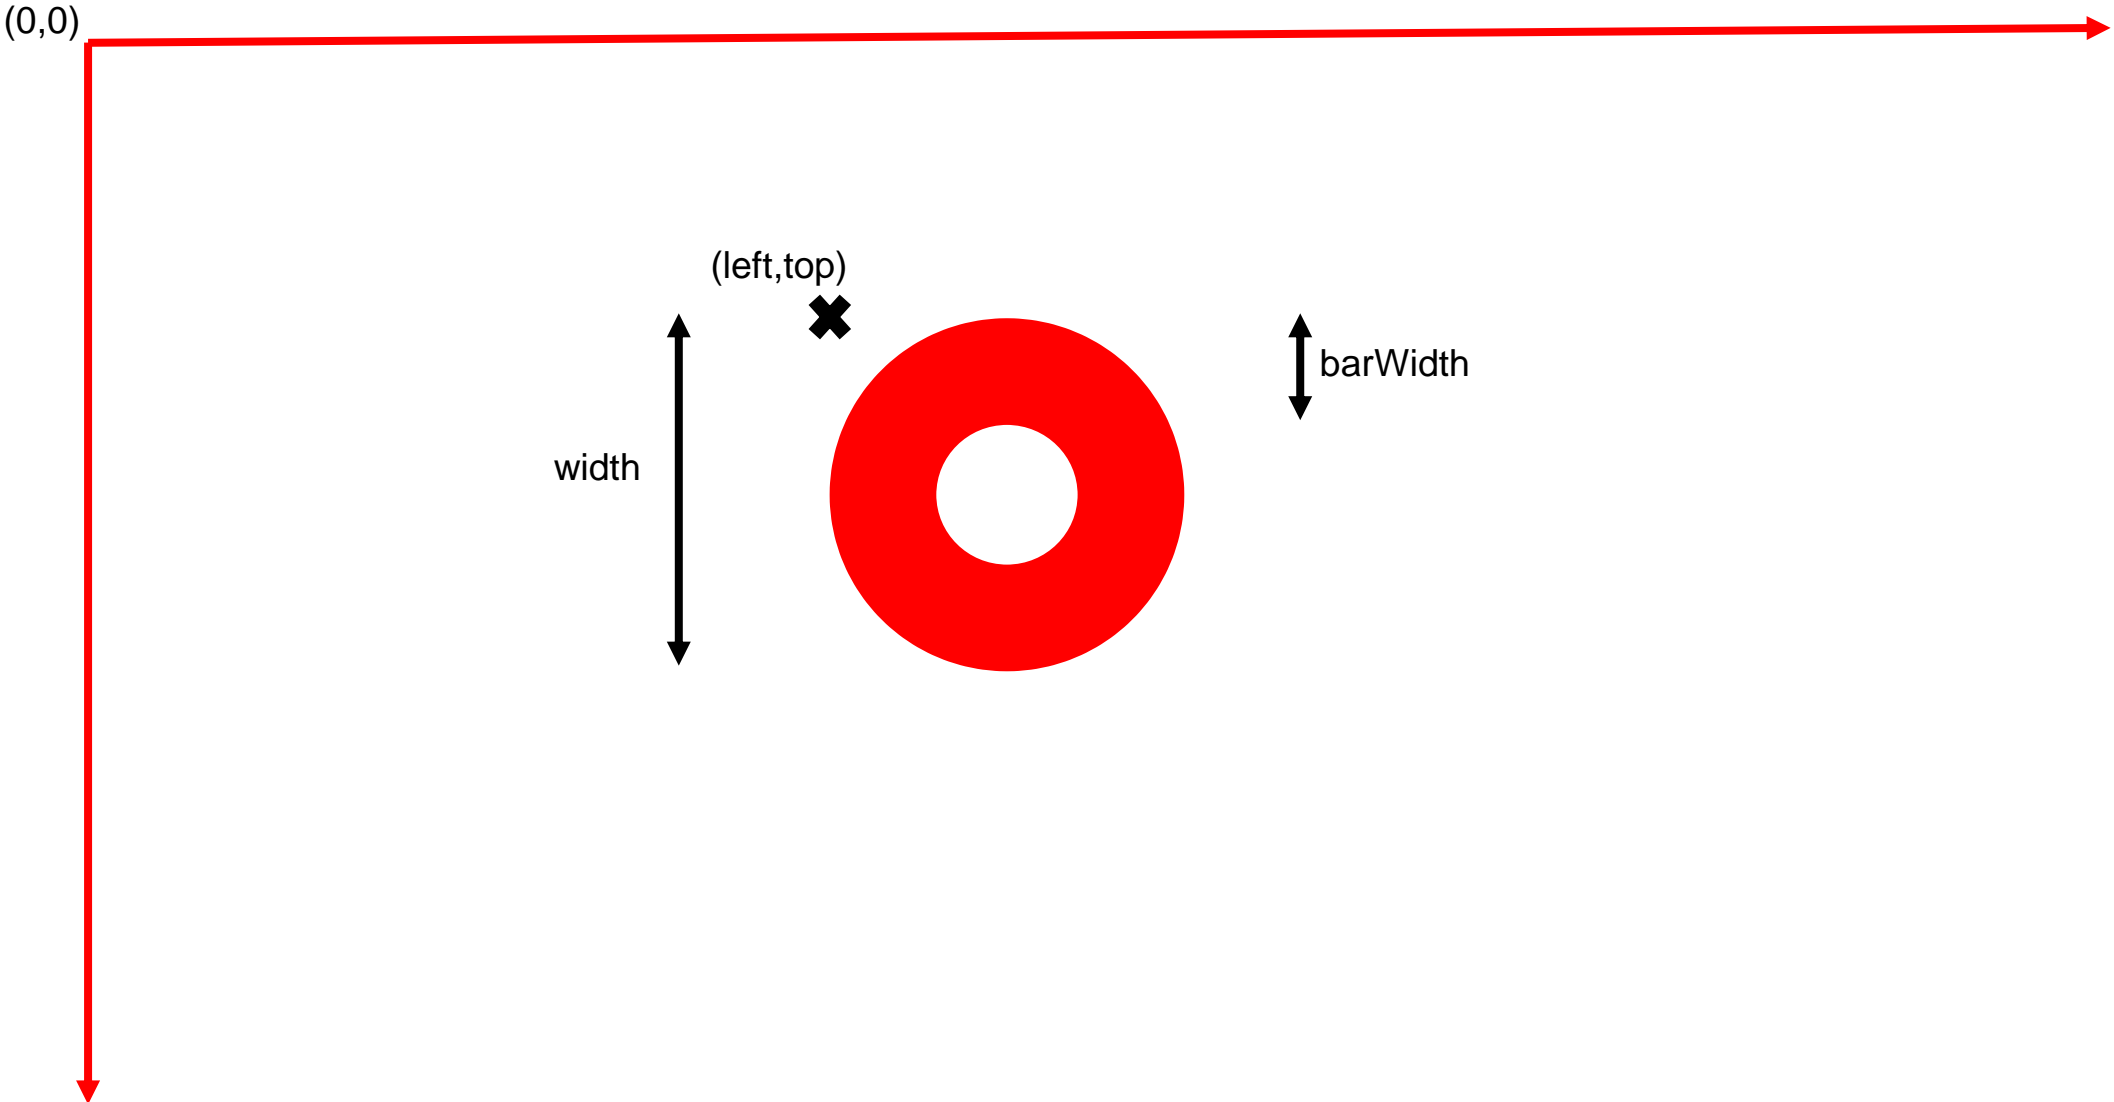

- Integer vs int
- List

# Lists and numbers

---

# Draw Donuts

# Draw Graph
